NOTE. By a reference to the accounts of the Surveyors, it will be observed, that the town is indebted to William Clap, \$115 22, and to Edward H. R. Ruggles, \$41,98, making together \$157 20, for expenditures for Highways ; but they have purchased in the last year, Wheels, Scrapers, and Tools, to the amount of more than \$120 00 which, with the articles formerly bought, and now stored at the Alms-House, are worth more than the above excess of expenditures. It is therefore hoped that the town will, at the next Annual Meeting, provide for the reimbursement of that sum.

An estimate of the sums necessary to be appropriated for the various expenditures of the Town, for the year ensuing, together with the anticipated resources, and the sum to be raised by taxes, has been furnished to the Auditors by the Selectmen, and is herewith annexed.

In conclusion, the undersigned, having carefully examined the Financial Affairs of the Town, would remark, that the system of Town expenditures has been considerably improved within the last two or three years ; at the same time, they feel it incumbent upon them to suggest, that the management of School expenditures might be greatly improved—that it is not only highly necessary, but *practicable*, that a more judicious and rigid economy should be observed in that important department of the expenditures of the Town, embracing as it does, nearly one half of the sum raised by Taxation.

This being done, and a correspondent economy *continued* in the other departments, our Taxes, which have lately been unusually high, may be considerably lessened, and thereby produce more satisfaction among those from whom they are raised.

Respectfully submitted, by

OTIS SHEPARD,	}	AUDITORS, 1842.
